🔗 Portfolio website

I am a full stack developer passionate about user-centred design and creating products that are accessible and inclusive to all. I have a background in content design and a penchant for travelling and coffee.

RELEVANT EXPERIENCE

Codebar, *Developer*

Aug 2020 – present

A redesign of Codebar's manual website which is used for corporate sponsors and volunteers to run free coding workshops to make tech more accessible to everyone. The original site was built in Ruby on Rails

Tech stack includes: React, Storybook, Styled Components, Figma

Criminal Appeals Fund, *DevOps Lead and Developer*

Jun 2020 – Jul 2020

A platform to provide funding for legal professionals looking to shake up the criminal justice sector in the UK. As Dev Ops lead, I was responsible for implementing serverless architecture into the project, deploying the app with Netlify lambda functions and setting up Airtable as the project's backend.

Tech stack includes: React, Airtable, Netlify Lambda and Jest

EDUCATION

Web Development, *Founders and Coders*

Mar 2020 – Jul 2020 | London

18 week, full-stack bootcamp with a focus on vanilla JS and agile methodology. Topics covered include React, Node.js and testing. Built a student project: Where's Whippy which is a single-page web application designed to connect nearby ice cream vendors with potential customers. Tech stack was React, Express, PostgreSQL and Jest.

Comparative Literature and French, *University of Kent*

Sep 2011 – Jun 2015 | Canterbury

Awarded 2:1

Modules include: Business French, Year Abroad Dissertation and SWIPE Undergraduate conference

A Levels in Government and Politics, Sociology, English language and Literature (ABB), *Richmond upon Thames College*

PREVIOUS EXPERIENCE

Parliamentary Digital Service, Content Design Assistant

Jun 2018 – Feb 2020

Advised teams across both Houses on how to improve their content for the general public, was involved in the overhaul of the Commons Speaker's online content on the main Parliament.uk website after the Speaker's election in 2019 and supported the roll out of the new CMS system in Q1 of 2020.

Government Digital Service, Executive Assistant

Mar 2018 – Jun 2018

Provided diary management to two Deputy Directors in the Strategy and Engagement Division

Code First: Girls, Programmes Associate (Fixed Term Contract)

Aug 2016 – Feb 2018

Managed 40 courses across the UK and Ireland as part of the organisation's 2020 strategy, and co-wrote the organisation's social media strategy which led to a 20% increase in engagement across social media platforms.

Lloyds of London, Administrator

Sep 2015 – Aug 2017

Assisted with the provision of banking and payment processing services to different departments and monitored cash flow in corporation bank accounts for any unusual account activity.

Academie de Creteil, Foreign Language Assistant

Oct 2013 – Apr 2014

Prepared students for their English Baccalaureate exams through leading conversational workshops, lessons on English literature and the fundamentals of English grammar in French
